

Optical Performance	Clarity by Larson-Juhl AR70	Clarity by Larson-Juhl AR92	Clarity by Larson-Juhl SC92
Coating Type	Durable Magnetron Sputtered Metal Oxide Coating		
Visible Light Transmission (380-780nm, according to EN410)	~ 99%	~ 98%	~ 90%
UV Protection (300-380 nm)	~ 70%	~ 92%	> 92%
Antireflective	✓	✓	
Can be glazed and cut on either side	✓	✓	✓
Easiest Handling and Cleaning	✓	✓	✓
Glass Substrate	Low iron float glass (water white)	Low iron float glass (water white)	Regular float glass

Sizes 1100 x 1600 (4 sheets per box) and 800 x 1100 (6 sheets per box);

All Clarity by Larson Juhl glass are coated and pass the following durability tests:

- Abrasion ISO 9211-4
- Adhesion ISO 9211-4
- Humidity ISO 9022-2
- Solvent stability ISO 9211-4
- Temperature ISO 9022-2

- UV and condensation EN 1096-2
- Neutral salt spray EN 1096-2
- Climate cycling EN 1096-2
- Acid rain test EN 1096-2
